### Features

Very beautiful ground floor apartment in the new construction project of 12 Villa Verde apartments. This newly built apartment is located at the water, at 100 meters of where the de Laguna Marina enters the Caribbean Sea. Characteristic are the fresh colors and the modern design of AG architects that will appeal to many people.

Each apartment measures 180 square meters including the wide covered porch facing the water and the building has three floors. The apartments are extremely luxurious and come with many extra features. You have three lay out options: an extra bedroom, an extra office space or a wide open kitchen can be constructed based on your personal preference. The view of the marina of Plaza Beach Resort and the Caribbean Sea are spectacular as well as the sunsets.

Due to its location in residential area 'Mixed I,' both vacation rental and long-term rental are allowed. The apartments can also be occupied by the owners, as there is no obligation to rent. Since the apartments will be brand new, there is a tax exemption for the annual property tax (real estate tax exemption) for a period of 5 years. The expected date of completion is Q1 2026.

- 12 luxurious newly built apartments,
- with solar panels and partially off-grid,
- Located at water with entrance to water through boat dock,
- Including 2 parking spots per apartment,
- Including separate storage
- Vacation and long term rental allowed (vacation rentals are managed through a pre-selected agency),
- Permanent living allowed,
- Communal pool,
- Real estate tax exemption for 5 years.

All apartments will be subject to an HOA. Please contact us in case you wish to receive further information.
